Actions and Consequences

Table 1 on the next page describes the possible consequences which will be applied to students who exhibit behaviours that do not support school values.

While the sequence/stages of various disciplinary consequences outlined below in Table 1 serve as a reference point, the administration of the school disciplinary action and final decision will depend on the situation in which the offence was committed, its nature and its severity.

In addition to the consequences outlined in Table 1, when applicable, the school will also implement **corrective measures (outlined below in Table 2)** to help students understand both the consequences of their actions and the right values on which their actions should be based on.

Corrective measures are a form of deterrence and a way to teach students to respect the school, the school staff and their peers. It is student-centric in its aim to help them change for the better.

4. A Progress Report is issued to parents for endorsement at the end of each term.

Semestral Examination

1. One semestral examination is conducted at the end of the year for Secondary 1 to 3.
2. One preliminary examination is conducted in Term 3 for Secondary 4.

Criteria for Progression to Post-Secondary Education

Institutions for Secondary 4 & 5 students (from 2027 onwards)

The implementation of full SBB provides greater flexibility in subject offerings and caters to the strengths of students in different subjects. It also facilitates students to have more options for post-secondary pathways. The table below summarises the available pathways for students based on the subjects offered:

Students taking at least	POST-SEC PATHWAYS					
	ITE Year 1 Entry	ITE Year 2 Entry	Polytechnic Foundation Programme (PFP)	Polytechnic Year 1	Millennia Institute	Junior College

Note: All students will offer at least 5 upper secondary examinable subjects.

With the introduction of the Secondary Education Certificate (SEC) examinations in 2027, the JC and MI admission criteria have been adjusted. The shift affords students greater agency to reduce the number of subjects offered to allow students to pursue other interests and strengthen their 21CC development through CCAAs and leadership opportunities. The admission criteria for the various post-secondary education institutions (PSEIs) are as follows:

Admissions Criteria to Junior College (JC) & Millennia Institute (MI)

[JC] L1R4 ≤ 16; [MI] L1R4 ≤ 20 raw aggregate score computed with G3 subjects

Admission to	Aggregate criteria	Other remarks
Polytechnic	four G3 subjects and one G2 subject: ELR2B2 \leq 22 (\leq 24 for Diploma in Nursing)	Meet minimum entry requirements (MER)
2-year Higher Nitec	Students taking a <u>combination of G3 and G2 subjects</u> : Aggregate is calculated based on G2 scores after mapping with criteria as ELMAB3 \leq 19	All Higher Nitec students with a minimum raw GPA of 3.5 will be guaranteed a place in a mapped polytechnic course
3-year Higher Nitec	Students taking predominantly G1/G2 subjects: aggregate score will be computed based on four G1 subjects after mapping	

For admission to Polytechnic, students will be able to offer one subject at G2. With this change, all students will be assessed based on four G3 subjects and one G2 subject, instead of five G3 subjects. There is no change in the requirements for admissions to the PFP.

For admission to ITE, Nitec courses will be enhanced to a three-year curricular structure leading directly to a Higher Nitec certification. Consequently, the Direct-Entry Scheme to Polytechnic Programme (DPP) pathway will cease from the 2027 Secondary 4 cohort.

Co-Curricular Activities (CCAs)

Participation in a CCA is compulsory for all students in secondary schools. To enable our students to have an all-rounded education, students are expected to join one CCA offered by the school.

Their choice of CCA can come from the following categories: Uniformed Group, Physical Sports, Visual & Performing Arts, or Club and Society.

The attendance rate for participation in their CCA must be at least 75% yearly.

CCA – LEAPS 2.0

The intent of LEAPS 2.0 is to affirm students for their efforts in holistic development. Through the school's co-curricular programmes, students' development in 4 domains – Participation, Achievement, Leadership and Service – will count towards their bonus points for admissions to post-secondary institutions. For the 4 domains included in bonus point computation, students may obtain levels of attainment that run from level 1 to level 5.

Brief elaboration on each domain:

Participation	Recognises students' membership in a school-based CCA.
Achievement	Recognises students' achievements from representing the school or an external organisation approved by the school. Examples include representation and accomplishment at different platforms such as concerts and competitions.
Leadership	Recognises students' development as leaders.
Service	Recognises students' contributions in community service.

Students' development in the Enrichment domain will be recorded in their co-curriculum certificate and School Graduation Certificate. Enrichment complements the other 4 domains to complete holistic development for the students.

The school will offer enrichment programmes based on students' needs. They can be from the areas of Citizenship, Self-Management and Social Skills, Physical Activities and Sports, Aesthetics, Enterprise.
